These restaurants should improve service quality and customer

INTRODUCTION

This report presents a business analytics study for Swiggy using SQL. The objective is to analyze customer, restaurant, and order data to answer management questions and provide business recommendations based on the supplied dataset. All analyses and SQL queries are based on the case study dataset provided in the assignment.

BUSINESS QUESTIONS 20

ANSWER

These restaurants should improve service quality and customer

Q1. Which city should Swiggy focus on for expansion?

SQL Query

SQL Query

```
SELECT City, SUM(OrderAmount)
AS TotalRevenue
FROM Customers c
JOIN Orders o ON c.CustomerID
= o.CustomerID
GROUP BY City
ORDER BY TotalRevenue DESC;
```

OUTPUT

CITY	REVENUE
Delhi	3820
Mumbai	2930
Puni	1980

ANSWER

These restaurants should improve service quality and customer

Hyderabad	1350
Bangalore	1270
Chennai	880

ANSWER

Delhi generated the highest revenue and should be the primary city for expansion.

Haldiram's	1510
Brittani Blues	1340

ANSWER

These restaurants should improve service quality and customer

ANSWER

Barbeque Nation is the best-performing restaurant partner.

Q3 Which cuisine should be promoted more.

SQL Query

```
SELECT Cuisine,
COUNT(*) AS TotalOrders
FROM Restaurants r
JOIN Orders o
ON r.RestaurantID =
o.RestaurantID
GROUP BY Cuisine
ORDER BY TotalOrders DESC;
```

OUTPUT

ANSWER

These restaurants should improve service quality and customer

Cuisine	Order
Fast food	4
Pizza	4
Biryani	3
BBQ	2

ANSWER

Fast Food and Pizza are the most popular cuisines.

Q4. Who are the Top 5 most valuable customers.

ANSWER

These restaurants should improve service quality and customer

SQL Query

```
SELECT CustomerName,
SUM(OrderAmount) AS
TotalSpent
FROM Customers c
JOIN Orders o
ON c.CustomerID =
o.CustomerID
GROUP BY CustomerName
ORDER BY TotalSpent DESC
LIMIT 5;
```

OUTPUT

ANSWER

These restaurants should improve service quality and customer

Customer	Total Spent
Pooja Arora	1940
Priya Verma	1590
Anjali Jain	1380
Neha Kapoor	1340
Amit Sharma	1170

ANSWER

These customers are Swiggy's highest-value customers.

Q5. Which delivery partner deserves a performance bonus.

ANSWER

These restaurants should improve service quality and customer

SQL Query

```
SELECT DeliveryPartner,
COUNT(*) AS
SuccessfulDeliveries
FROM Orders
WHERE OrderStatus =
'Delivered'
GROUP BY DeliveryPartner
ORDER BY SuccessfulDeliveries
DESC;
```

OUTPUT

Delivery Partner	Successful Delivery
Aman	5
Rahul	5
Neha	4

ANSWER

These restaurants should improve service quality and customer

Rohit	4

ANSWER

Aman and Rahul deserve performance bonuses.

Q6. What is the average customer spending per order.

SQL Query

```
SELECT AVG(OrderAmount) AS
AverageOrderValue
FROM Orders;
```

OUTPUT

Average Order Value	₹660.50

ANSWER

These restaurants should improve service quality and customer

ANSWER

Customers spend an average of ₹660.50 per order.

Q7. Which restaurants need improvement based on ratings.

SQL Query

```
SELECT RestaurantName,
Rating
FROM Restaurants
ORDER BY Rating ASC;
```

OUTPUT

Restaurant	**Rating**
Faasos	4.0

ANSWER

These restaurants should improve service quality and customer

KFC	4.1
Subway	4.2
Wow Momo	4.2

Q8. What percentage of orders were cancelled.

SQL Query

```
SELECT ROUND(
(COUNT(CASE WHEN
OrderStatus='Cancelled' THEN
1 END)*100.0)
/COUNT(*),2
) AS CancelledPercentage
FROM Orders;
```

OUTPUT

ANSWER

These restaurants should improve service quality and customer

Cancel Order	10%

ANSWER

Two out of twenty orders were cancelled, giving a cancellation rate of 10%.

Q9. Which city has the highest average order value.

ANSWER

These restaurants should improve service quality and customer

SQL Query

```
SELECT City,
AVG(OrderAmount) AS
AverageOrderValue
FROM Customers c
JOIN Orders o
ON c.CustomerID =
o.CustomerID
GROUP BY City
ORDER BY AverageOrderValue
DESC;
```

OUTPUT

CITY	Average Order Value

ANSWER

These restaurants should improve service quality and customer

Mumbai	₹732.50
Hyderabad	₹675.00
Pune	₹660.00
Delhi	₹636.67
Bangalore	₹635.00
Chennai	₹440.00

ANSWER

Mumbai has the highest average order value.

Q10. Business Recommendations

1.Expand restaurant partnerships and marketing in Delhi and Mumbai.

2.Reward top customers and delivery partners through loyalty and incentive programs.

3.Improve low-rated restaurants and reduce order cancellations through better quality control.

CONCLUSION

The SQL analysis shows that Delhi is the leading revenue-generating city, while Mumbai has the highest average order value. Barbeque Nation is the top-performing restaurant, Fast Food and Pizza are the most popular cuisines, and Aman and Rahul are the leading delivery partners. Implementing the recommendations above can help improve customer satisfaction, increase revenue, and strengthen Swiggy's overall business performance.

ANSWER

These restaurants should improve service quality and customer
